Subject: Label Notification per PRN 2007-4 – Revision of Label Container Handling Statement
Product Name: Ipconazole Technical
EPA Registration Number: 400-512
Application Date: 2/25/2015
Decision Number: 502332

Dear Ms. Ball:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 2007-4 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 2007-4 and finds that the action requested falls within the scope of PRN-2007-4.

The label submitted with the application has been stamped "Notification" and will be placed in our records.

Please be reminded that 40 CFR Part 156.140(a)(4) requires that a batch code, lot number, or other code identifying the batch of the pesticide distributed and sold be placed on non-refillable containers. The code may appear either on the label (and can be added by non-notification via PR Notice 98-10) or durably marked on the container itself.

If you have any questions, please contact Lindsay Roe at 703-347-0506 or by email at roe.lindsay@epa.gov.

Sincerely,

A handwritten signature in black ink, which appears to read "Tony Kish", is positioned below the word "Sincerely,".
